Sushil hari International residential school

06/2018 - 03/2019

70%

UG degree

St Joseph's College of Engineering

07/2019 - Present

8.64 (present)

Courses

- BE/EEE

PERSONAL PROJECTS

Sorting Visualizer (08/2021 - 01/2022)

- Sorting.Visualizer is a web app for visualizing a bunch of different sorting algorithms Like Selection Sort, Bubble Sort, Insertion Sort, Merge Sort, Quick Sort, Heap Sort With the functionality of (Speed Control) and (Array Size Control).

SnakeGame (09/2022 - 09/2022)

- The player controls a long, thin creature, resembling a snake, which roams around on a bordered plane, picking up food (or some other item), trying to avoid hitting its own tail or the edges of the playing area. Each time the snake eats a piece of food, its tail grows longer, making the game increasingly difficult.

Chat App (03/2023 - 04/2023)

- A chat app between localhost in a computer refers to a messaging application that allows users to communicate with each other within the same computer system. When we say "localhost", we are referring to the computer system itself. Every computer has a local IP address, which is usually "127.0.0.1" or "localhost".

Shopping cart (11/2022 - 12/2022)

- A shopping cart is a key component of an e-commerce website that enables customers to add products to their cart for purchase. The front-end of a shopping cart typically includes the following components:

User Authentication using Node and Express js

(04/2023 - Present)

- Node.js and Express.js can be used to implement user authentication by implementing sessions, cookies, and password hashing for secure login.
